SPIRITUAL EXERCISES FOR BUSINESS

A SILENT RETREAT FOR SELF-REFLECTION AND SELF-AWARENESS

VERONA | 28-30 NOVEMBER 2019

The Spiritual Exercises have to be adapted to the dispositions of the persons who wish to receive them, that is, to their age, education or ability, ... [Spiritual Exercises18]

When a ship is heading for a known destination the captain need only give orders; when it is exploring new waters and is looking for new land the captain needs to *unlock the abilities of all* on board.

HOW A WISDOM TRADITION CAN IMPACT YOUR STEWARDSHIP

In an age of increased awareness of the complexity of our world, leaders understand they can no longer just be solutions focused; we must see beyond the symptoms to **create sustainable ways of working.**

450 years ago, Ignatius of Loyola founded the Society of Jesus, an organisation with solid operating principles that are as relevant today as they were then.

YOU ARE INVITED TO A GUIDED SILENT RETREAT FOR EXECUTIVES INSPIRED
ON THE WORK OF ST. IGNATIUS.

YOU WILL BE A PILGRIM IN VERONA; A CENTRE OF HISTORY, CULTURE AND
SPIRITUALITY.

AIM

The aim of this retreat is to give an experience of the power of self-reflection for effective leadership and decision-making. The programme will contribute significantly to the nurturing of the qualities necessary for leaders of our time: awareness, empathy, ingenuity and courageous action.

There will be a series of fundamental questions to guide people during the course: Where am I at? What or who gives direction to my actions? What sets me in motion? What gives me energy? The Spiritual Exercises draw on a centuries-old tradition framed by these questions.

This retreat reconnects spirituality to society and business.

MODEL

The *Exercises* offer an excellent model for simplicity and effectiveness in today's business environment. A model for ordering one's life by channelling it towards a clear purpose that is well-suited to support change processes in organisations.

BENEFITS

As leaders our care and vision can enhance meaning, belonging and well-being for all members of our organisations; the ability to do so directly impacts people and company performance. The programme works on the understanding that improved decision-making in organisations will positively impact society as a whole.

TARGET

For leaders with responsibility for taking strategic, tactical and daily operational decisions that affect the financial, commercial and social stability, as well as the sustainability of the organisations and communities they serve. No prior experience of the Spiritual Exercises is required. The programme is suitable for everyone – and open to all faiths and none.

APPROACH

You will be guided through a Spiritual Exercises approach that includes: meditation; contemplation; inspiration through art, drama, literature and film; journaling; and the *examination of conscience*.
